

## Research Articles (Evaluation)

Review Form for Small Business International Review reviewers (SBIR)

---

**EVALUATION CRITERIA.** Please rate the work from 1 to 7 (1 for lowest value and 7 for the highest value, leave it blank if not applicable)

- There is an appropriate theoretical framework that supports research proposals
  - The research methodology (statistical samples, measuring variables and analysis of data) for the study is appropriate and applied properly
  - The conclusions and discussion of the results are relevant to the research topics of the work
-
